"Our kids are growing up on a digital playground and no one is on recess duty."

"Filter a website and you protect a child for a day. Educate your students about being a responsible digital citizen, and you protect your child for a lifetime."

	AGES: 3-6 and 6-10 Great books for teaching your pre-school and elementary child about pornography and what to do when they see it. The author believes in Jesus, but it is written as a secular resource. https://protectyoungeyes.com/pictures
	AGES: 10-15 A great book for teaching your middle or early high school student about the risks of sexting, porn, and digital dangers, written from a Christian perspective. https://protectyoungeyes.com/phone
	AGES: ALL Authored by Chris McKenna, this book gives tech talking points (yes, exactly what to say!) in each of the 4 phases of a child's life: pre-school, elementary, middle, and high school. https://protectyoungeyes.com/tech-talks
	AGES: birth-14 Mobicip is what we recommend for Android devices and Chromebooks. They continue to improve the quality of their product show their strength with an amazing filter for safer internet browsing. https://protectyoungeyes.com/mobicip
	AGES: 12-adult For older teens and young adults, Internet Accountability teaches you to click well. Great for iOS, Mac, Windows, Android. Try it FREE for 30 days with promo code: protectyoungeyes https://protectyoungeyes.com/covenant-eyes
	AGES: anyone using social media Bark uses a complex algorithm to detect harmful and inappropriate language, fake accounts, and harmful images on major social media platforms like Snapchat and Instagram. It layers really well with Mobicip, Covenant Eyes, or Forcefield. https://protectyoungeyes.com/bark
	AGES: 7-14 An excellent parental control for iOS devices that parents want to monitor but also allow kids enough freedom to explore and learn how to use the device well. Use Forcefield with iOS Restrictions for a safe Apple experience. https://protectyoungeyes.com/forcefield
